Event Highlights

Special session and posters presented by the
International Symposium on
Gait and Balance in Multiple Sclerosis

- **In-depth** sessions on physical and occupational therapy best practices and innovations
- **Expanded** rehabilitation conference track and focused pre-conference session
- **Networking** with top clinicians and researchers in MS care
- **Continuing education** credits available for physical and occupational therapists

Why Should Rehabilitation Professionals Attend?

Rehabilitation plays a vital role in comprehensive MS care. At the CMSC Annual Meeting, physical therapists, occupational therapists, speech language pathologists, rehabilitation nurses and other specialists gain cutting-edge insights into mobility, cognition, function and quality of life.

Participate in interdisciplinary sessions, meet leaders in MS rehabilitation and bring evidence-based strategies back to your practice.
